## PRODUCT DESCRIPTION

The Fillboy is a counter pressure filler, with which CO<sub>2</sub>-containing beverages can be filled under counter pressure of up to 3bar. Filling is done by a filling head which is placed on the bottle with a lever. The beer line is opened manually via a ball valve. When the desired filling quantity is reached, the ball valve is closed again manually. In order to be able to control the filling process better, the bottles are illuminated with an LED lamp.

It can be used to fill glass bottles (0.25l to 1l), siphons and barrels (5l); PET bottles on request. The filling speed can be adjusted continuously from 0.5 to 2l/min by a throttle. About 80 bottles of 0.5l each can be filled per hour.

## PRODUCT DATA

DIMENSIONS H/W/D: 600/150/550MM

WEIGHT: 11KG

FILLING SPEED: 0,5 TO 2L/MIN

CO<sub>2</sub> OPERATING PRESSURE: MAX. 3BAR

OPERATING PRESSURE: MAX. 8BAR

## SCOPE OF DELIVERY

CONNECTION ACCESSORIES & HOSE FOR KEG DISPENSER

LED LAMP WITH MAGNET

## AVAILABLE ACCESSORIES

FILLCONTROL (FOR AUTOMATION)
