## PRODUCT DESCRIPTION

With our corker beer and other beverages in glass bottles with crown caps of 26mm or 29mm diameter can be closed.

The crown caps are filled into the upper container. During each corking process, a crown cap is released and slides under the corking punch. Closing is effected by the head pressing the crown cap onto the bottle mouth with the aid of a cylinder, thus sealing it. For reasons of safety, the corker has two-hand operation by means of two push-buttons mounted on the right and left of the housing.

## PRODUCT DATA

DIMENSIONS H/W/D: 780/260/290MM

WEIGHT: 24KG

CO<sub>2</sub> OPERATING PRESSURE: 1.5 TO 3BAR

OPERATING PRESSURE: MAX. 8BAR

ELECTRICAL DATA: 240V 3,2A

## SCOPE OF DELIVERY

ONE BOTTLE HOLDER AS DESIRED

POWER SUPPLY UNIT 12V 2A
